Buyer Survey	Is there anything else you would like to share with us - about the service you received, special effort made by the sales associate(s), or any other subject?	92001101-2008-00595/S	shawn and erika rangel	Lexi was every home buyer's dream agent. She was knowledgable about the community, knew how to do a short sale (unlike the selling agent), was conscientious about staying within our budget, and was supportive all around. We would recommend her enthusiastically to any of our friends who are buying or selling a home. Her referrals for brokers and lawyers were also dead on. When we had trouble with one lender, she immediately found another who was better. It is rare to find such an ethical and dedicated agent in a field where many people are just desperate to make a sale. There is a reason Lexi remains so busy in her practice even in this tough economic market.
